Total number of children vaccinated

Enter the total number of children vaccinated during the round

Number of usable vials in stock at the beginning of the SIA round

Number of usable vials remaining from a previous round. Put 0 if there was no previous passage.

Number of usable vials received to conduct the SIA round

Usable vials received at the start of the round

Number of usable resupplied during the SIA round

Usable vials resupplied during the round

Number of usable vials transferred during the round

Number of usable vials transferred during the round:

- *To another health facilities for health facilities,*
- *To another district for districts,*
- *To another region for regions.*

Put 0 if there was no transfer.

Number of usable vials distributed from this health structure

Sum of usable vials distributed during the round:

- *To the vaccination teams for health facilities,*
 - *To health facilities for the districts,*
 - *To the districts for the regions,*
 - *To the regions for the national level.*
-

Number of usable vials received from lower level

Sum of usable vials collected at the end of the round:

- *From vaccination teams for health facilities,*
 - *From health centers for the districts,*
 - *From districts for regions,*
 - *From regions for the national level.*
-

Number of unusable vials received from lower level

Sum of unusable vials collected at the end of the round:

- *From vaccination teams for health facilities,*
 - *From health centers for the districts,*
 - *From districts for regions,*
 - *From regions for the national level.*
-

Number of usable vials physically counted on site

Make a physical inventory of usable vials before entering this data

Number of unusable vials physically counted on site

Make a physical inventory of unusable vials before entering this data

Number of usable vials returned to higher level

Sum of usable vials returned at the end of the round:

- *To the district for health centers,*
- *To the region for the districts,*
- *To the national level for the regions.*

Put 0 if there are no vials returned to the next level.

Number of unusable vials disposed on site

*Number of unusable vials destroyed in the health structure.
Put 0 if the health structure has not operated any destruction.*

Summary before validation

Wastage Factor : NaN

Wastage Rate : NaN %

🙄 CHECK ! You have MORE vials (usable and unusable) returned than distributed : NaN

🙄 CHECK ! You have LESS vials (usable and unusable) returned than distributed : NaN

🤖 CONGRATS ! The number of vials returned matches the number of vials distributed : NaN

Theoretical number of usable vials in stock : NaN

Number of usable vials in stock physically:

Number of unusable vials in stock physically:

🤖 CHECK ! Your theoretical stock is higher than your physical stock : NaN

🤖 CHECK ! Your theoretical stock is lower than your physical stock : NaN

🤖 CONGRATS ! Your theoretical stock matches with your physical stock : NaN

Type a comment here, in particular in case of a discrepancy to justify

END OF FORM

Please send this form after finalizing

PLEASE NOTE: you only have to submit one form per round and per health facility. If you submit more than one, only the last one will be considered.
